

Message from President

Dear Colleague,

On behalf of the Thai Association for the Study of Pain (TASP), it is our pleasure to invite you to attend the 32nd Annual Scientific Meeting of TASP during May 22 -23, 2021. Also, a pre-congress on May 21, 2021, entitled "How I Do It in Back Pain Management."

Since the International Association for the Study of Pain (IASP) dedicated 2021 as the "Global Year About Back Pain," TASP Scientific Committee has accordingly held a pre-congress meeting focusing on back pain management. In this TASP annual meeting, it is our privilege to have world-renowned speakers, including Prof. Claudia Sommer, the President of the IASP as our the 18th Sira Bunyaratavej Honorary Lecturer, and Prof. Steven P. Cohen from John Hopkin University, USA, as the plenary lecturer.

The annual meeting will also be dedicated to cover a board spectrum of up-to-date, multi-disciplinary approaches to pain. Our schedule includes talks and case-based discussions on pharmacological and non-pharmacological treatments for low back pain. We will also touch upon updates in cancer pain and orofacial pain management, pain medicine in the COVID-19 era, and accreditation of pain services.

Because of the COVID-19 pandemic situation, our annual conference will be held as a virtual meeting. Although we cannot meet in person, this virtual meeting might be an opportunity to contribute pain knowledge from different angles. Participants will have a chance to attend lectures at their convenience within one month.

We sincerely hope this conference will deliberate and discuss global updated knowledge about pain medicine, which leads to recommendations or movement to a better, safer, and worthwhile health care delivery.

We look forward to welcoming you to the 32nd Annual Scientific Meeting in May 2021. Please mark your calendar and join us.

Sincerely,

Prof. Wichai Ittichaikulthol, MD
